

RAJSHEKHAR DAS

Junior Full-Stack Developer

I am a Full-Stack Developer focusing on Progressive Web Applications and Mobile Applications end to end development with over 1+ years experience. Having started as a Front-end Developer, I've been working with HTML, CSS, JQuery. Then I came to know about these awesome frameworks like Express, NextJS AngularJS and ReactJS. Now I also learning Mobile development with ReactNative.

AREAS OF EXPERTISE

NodeJS Express/Nest Angular/React NextJS Firebase UI/UX
Heroku MongoDB TailwindCSS Bootstrap GitHub

WORK HISTORY

FRONT-END DEVELOPER

FREELANCE WEB DEVELOPER | JAN 2022 - PRESENT

- Proficient in React.js, I've created responsive user interfaces, integrated APIs for dynamic content, and implemented UI designs for aesthetic and user-friendly experiences. I optimize code structure and performance.
- Skilled in Tailwind CSS and Bootstrap for efficient development, ensuring cross-browser compatibility and fast-loading websites.
- Integrated Firebase into web and mobile apps, enabling real-time data management, authentication, and cloud services for enhanced user experiences. Utilized Firestore, Firebase Authentication, and Cloud Functions for efficient app development.

FULL-STACK DEVELOPER

FREELANCE WEB DEVELOPER | JUNE 2022 - PRESENT

- Authentication and Authorization: Developed secure user authentication and authorization systems using Firebase and JWT tokens, ensuring seamless login, signup, and access control.
- Database Management: Leveraged MongoDB for efficient data storage and retrieval, maintaining data integrity and scalability for web applications.
- Admin Panel Creation: Designed and implemented user-friendly admin panels, facilitating efficient management of user accounts, content, and application settings.
- Contributions to Larger Projects: Contributed to larger applications by tackling small tasks, including bug fixes, feature enhancements, and performance optimizations, ensuring overall application reliability and functionality.

KEY SKILLS

FRONT-END DEVELOPEMENT

- HTML: Proficient in creating structured and semantic web content.
- CSS: Skilled in styling web pages and ensuring responsive designs.
- Tailwind CSS: Experienced in using the utility-first CSS framework for efficient styling.
- Bootstrap: Proficient in using Bootstrap for building responsive and visually appealing interfaces.
- React: Adept at developing interactive and dynamic user interfaces using React.js.

- API Integration: Capable of integrating external APIs to add functionality and features to web applications.
- Next.js: Familiar with Next.js for server-side rendering and optimized React applications.
- GitHub: Competent in version control and collaboration using Git and GitHub.

FULL-STACK DEVELOPEMENT

- Node.js (Beginner): Familiar with the server-side JavaScript runtime for building scalable web applications.
- Express (Beginner): Basic knowledge of the Node.js framework for creating server-side APIs and routes.
